

October 31, 2019

Mr. Mike Stoker  
Regional Administrator  
U.S. Environmental Protection Agency  
Region 9  
75 Hawthorne Street  
San Francisco, California 94105

Dear Mr. Stoker:

The California Air Resources Board (CARB) is submitting to the U.S. Environmental Protection Agency (U.S. EPA) a revision to the California State Implementation Plan (SIP) from the Amador Air District (District). The revision consists of Rule 400, *NSR Requirements for New and Modified Major Sources in Nonattainment Areas*, adopted by the District on August 20, 2019. This submission satisfies requirements for the 1997 80 ppb and 2015 70 ppb 8-hour ozone standards for nonattainment New Source Review.

Enclosed is the complete package submitted by the District to CARB, as well as CARB Executive Order S-19-014 adopting the District rule as a revision to the SIP. To meet U.S. EPA's criteria for determining that rule submittals are administratively and technically complete, we have enclosed an evaluation of the effects of the rule on emissions, an evaluation of the rule's consistency with 40 CFR 51, and other supporting documentation provided to us by the District.

If you have any questions, please contact Mr. Kurt Karperos, Deputy Executive Officer, at (916) 322-2739, or have your staff contact Dr. Michael Benjamin, Chief, Air Quality Planning and Science Division, at (916) 201-8968.

Sincerely,

  
Richard W. Corey  
Executive Officer

Enclosure(s)
